

## What We Do

For a fixed price of £700, and in just one week, we will deliver:

- ~ A purpose built dashboard widget with your company branding
- ~ Statistics showing how many times your widget has been downloaded
- ~ Code samples ready to place on your company website
- ~ Complete support via email for six months
- ~ All source code and copyright transfer

## Who We Are

Wdgy is Stuart Frisby, a web designer from Liverpool, England. Stuart has been working with the web for the best part of a decade, and with widgets since they were introduced to OSX.

Stuart was recently asked by Apple Computers to give an interview about developing for the dashboard, and is a leading dashboard developer.

## What We've Done

Since the launch of OSX Tiger, wdgty have created a range of widgets. You can see the full range at [wdgty.com](http://wdgty.com)

These widgets range in purpose from Stats tracking and Jobs postings, to Blog Posts and web searches.

Place your business at the heart of your users computing experience with a widget from wdgty
